QUESTIONS:

[INTRODUCTION]

As you might recall from your participation in recent months, University of Toronto researchers are conducting an **ongoing study** during the COVID-19 pandemic—with questions repeated bi-monthly—to track potential changes in Canadians’ work and economic experiences and the effect on well-being. As usual, your responses to these questions will only be analyzed along with other survey participants and **no personally identifiable information will ever be shared.**

Again, thank you for your participation!

Sincerely, your Angus Reid Forum team and the University of Toronto.

Note: Changed or reordered the wording to improve clarity

[SINGLE CHOICE]

We'd like you to think about your current main job. "Main job" refers to work you do for pay—do not include volunteering, unpaid housework, or other unpaid activities. If you have more than one job, refer to the job you spend the most time at.

I'm currently working as...

- a full-time employee (I usually work **30 hours or more** per week at my main or only job)
- a part-time employee (I usually work **less than 30 hours** per week at my main or only job)
- a temporary worker (e.g. on-call/casual; paid by temp agency; limited term or contract; seasonal).
- a business owner
- self-employed (includes free-lance worker, family business, etc.)

I'm currently NOT working because I am...

- temporarily laid off; furloughed; work is suspended
- unemployed
- on disability or sick leave; off due to injury
- on maternity or parental leave
- a student or in school
- retired
